

WHAT IS THE 9-12 PROJECT OF IDAHO??

We are a non-partisan citizen's advocacy group that was founded upon the 9 principles and 12 values as originally proposed by Glenn Beck in March 2009, and we have been growing in the valley ever since.

The goal is to try and recapture that "spirit of American patriotism" that we all felt the day after 9-11, when no one cared about D's or R's, we just cared about our country and our need to be safe.

We work to harness that spirit, in an effort to restore our country to the Republic as designed by our founding fathers, through promoting constitutional studies, lobbying, voter awareness, and other community involvement.

We advocate for restoring the personal liberties of our citizens by focusing on the issues that unite us, as Americans, to overcome the deep social divides we are experiencing in our country today.

Our country needs experienced patriots to promote the need to.....
